

Coronavirus Disease 2019 (COVID-19)

COVID-19 Questions

No sound. Silent video.

COVID-19 vaccines are new.

... and it's okay to have questions about them.

Top 5 things to know about COVID-19 vaccines:

- 1) They are safe and effective.
- 2) Side effects (tiredness, headache) are normal signs your body is building protection.
- 3) People 5 and older are now eligible.
- 4) You are fully vaccinated 2 weeks after getting all recommended primary doses, and up to date if you get your booster shot when you are eligible.
- 5) Once you are vaccinated, you have a better chance of staying out of the hospital if you get COVID-19.

Stay up to date on your COVID-19 vaccines. Get a booster shot when eligible.
